Richard,

You had requested background materials to prepare you for your visit to Cincinnati. Abby and the Cinc folks pulled some materials together for you. This is email 1 of 2. We don't plan to print the presentations in this email as you already have these printed in the binder that you received your first week.

I'll send you the other background materials.

Mya Sjogren

Subject: Additional ORD Cincinnati Background Materials
Importance: High

Hi Mya.

In addition to the EPA Cincinnati background materials provided, I am also resending here the 101 presentations that were developed in June for Richard by the L/C/Os. He most likely has these already and they obviously cover more research/work areas than just those in Cincinnati, however, they provide good overview/background information on each of the organizations.

I have included the 101s for the main ORD L/C/Os represented in Cincinnati: NRMRL (headquarters), NHSRC (headquarters), NERL, NCEA and OARS.

Please let me know if you have any questions.

Thanks

Abby

Subject: ORD Cincinnati Background Materials
Importance: High

Hi Mya.

Per Richard's request, please find attached some background materials on EPA/ORD in Cincinnati in preparation for his visit next week.

The first three items are high-level overview materials for EPA Cincinnati that we recommend:

- ORD Cincinnati At-A-Glance Fact Sheet
- EPA Cincinnati Facilities Overview (one-pager)
- Fact Sheet on the Test and Evaluation (T&E) facility that Richard will tour next Tuesday.

We are also providing the following background materials and additional information on topics that will be discussed during Richard's and Bruce's visit and/or other items that may be of interest related to EPA Cincinnati:

- Technical brief on EPA's Water Security Test Bed
- Technical brief on per- and polyfluoroalkyl substances (PFAS)
- Technical brief on Water Systems Research
- Technical brief on Small Drinking Water Systems Research and Development

Thanks!

Abby
